## 象的甲骨文

哇！這是什麼呀？你看！它有長長的鼻子、大大的耳朵、尖尖的長牙、肥壯的身體，加上下垂的尾巴……，沒錯！這就是「象」的甲骨文呀！

再看另一個象的甲骨文「𠩺」，大象正捲起高聳的鼻子，使勁往身上噴水呢！表達出了小象頑皮、愛玩水的天性。你看！我們古代的造字者，就是能把文字造得如此傳神、栩栩如生，真是令人讚歎哪！

## The bone script of "Elephant"

What does this image stand for? Look, it's something that has a long nose, big ears, sharp teeth and a bulky body. It's actually the bone script of the character "Elephant".

Now look at another bone script of the character "Elephant" 𠩺, in which the elephant curls up its trunk, spraying water all over itself. This shows the playful, water-loving nature of an elephant. It's amazing how ancient creators made each Chinese character so lifelike!
