## Regarding StoryBuilder

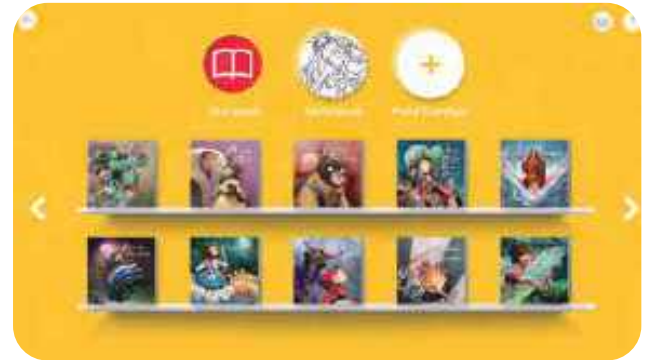

VRWARE Edu StoryBuilder allows users to create their own story based on classic masterpiece fairy tales. StoryBuilder is a metaverse-based storytelling creation solution which reconstructs ideas into an educational VR storybook. Use images selected from various recognizable children's books to compose your own story. Additionally, decorate your story with cute stickers, speech bubbles, and voice recording functionality. You can save the self-created content, share it with your friends, and even experience it in VR mode.

# What is StoryBuilder?

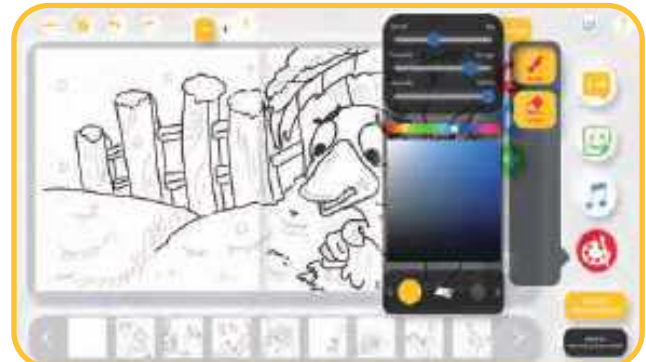

Create your own storybook and enjoy the viewing experience in VR mode.

Select from 33 Classic fairy tales to create your ideal VR story content.

Enjoy experimenting by freely coloring your own version of the iconic fairy tale scenes.

Freehand drawing allows you to creatively draw or write whatever you desire using a detailed color palette.

# What is StoryBuilder?

Sketch with the desired coloring and illustration settings with diverse color and brush selection.

Tell your story by using unique and expressive speech bubbles.

Compose richer and more expressive images by utilizing a diverse selection of cute stickers.

Freedom to decide how you want to compose the flow of the story with unrestricted image selection.

# What is StoryBuilder?

Become the main character in your self-created fairy tale by recording your own voice, rather than typing.

Elevate your VR book experience by selecting from a selection of background music so you can make your story more exciting.

In each mode, you can add or delete as many storybook pages as you want to adjust the length.

You can find out more detailed usage through the help view.

# What is StoryBuilder?

You can easily set up Wacom devices by directly accessing Wacom Desktop Center.

You can write your own diary by using the picture diary template provided.

You can play and enjoy your own completed storybook.

VR mode provides an immersive viewing experience for your self-created story.
